

Security Product Bulletin: NEW Secure Seal Telescopic Lengths

Two New Secure Seal Telescopic Lengths

Secure Seal SS and SSD will now include two new telescopic lengths: 20" and 32" adjustable lengths. LAT20 has a minimum/maximum adjustment of 14" to 20" and LAT32 has a minimum/maximum adjustment of 20" to 32".

Features & Benefits:

- Ease of installation: Telescopic lengths do not require cutting to fit dimension. Part easily slides in and out for maximum ease of installation.
- No messy solvents: No caulking is required at the joint. Simply apply lubricant and slide to fit dimension.
- 2 Viton O'ring included: Inclusion of 2 Viton O'ring's supplies additional rigidity and protection for sealing.
- Time saving: Overall installation time is reduced, saving time and money.

Note: AL24 and AL36 for SS, SSD, and SSID will be discontinued. Available until supplies last.
